

Bio-FRESH
PROFESSIONAL

Bio-Bath

Washrooms & Toilets

USES NATURE'S POWER. GETS DEEP INTO HARD-TO-REACH AREAS. CLEAN AND ODOUR-FREE DRAIN. NATURALLY BIODEGRADABLE. KEEPS WORKING AFTER APPLICATION.

HARNESSING NATURAL BIO-ENZYMES

BIO-ENZYMATIC CLEANER FOR HARD-TO-CLEAN BATHROOM AREAS, SUCH AS GROUT, TILE, AND LINO SURFACES. SUITABLE FOR DAILY USE ON MOST MODERN HARD SURFACES.

- Keeps washroom areas clean and odour-free
- Keeps on working after application
- Less work required
- Harnessing the power of Nature
- Naturally biodegradable
- Scented

Directions:

Bio-Bath is ready-to-use. Do not dilute. Spray using a foaming nozzle onto surfaces and allow time to soak into soap scum and biofilms. Heavily built-up areas may need abrasion with a stiff brush or sponge pad. Rinse cleaned areas with fresh cold water; re-apply a light layer of solution, and allow to dry. Do NOT RINSE OFF. Apply also into odorous drains and allow maximum contact time (evenings/weekends) to allow breakdown of soiling and reduce odours. Not recommended for use directly on food contact surfaces. Stained tiles and grout will need regular use and best results may not be apparent for 5-6 weeks. It won't happen overnight, but it WILL happen!

20 Litres FK-BI0B20

BATHROOM CLEANER

Use product UNDILUTED

Food Plants: Bio-Fresh products are designed to rid areas of typical plate count problems; floor and other wider environmental areas are not likely to have swabs / plate count results compromised. All MPI facility-based operators should rinse prior to swabbing.

How it Works

Bio-Fresh cleaners contain naturally occurring non-pathogenic microbes.
