

Bio-Multi

Bathrooms & Janitorial Hard Surfaces

ALL-PURPOSE HARD SURFACE CLEANER WITH A ROBUST BIO-ENZYMATIC FORMULA TO KEEP SURFACES CLEAN AND ODOUR-FREE. PERFECT FOR THE KITCHEN AND MOST HARD SURFACES IN THE BATHROOM, JANITORIAL AND OTHER APPLICATIONS.

HARNESSING NATURAL BIO-ENZYMES

ALL-PURPOSE HARD SURFACE CLEANER WITH A ROBUST BIO-ENZYMATIC FORMULA TO KEEP SURFACES CLEAN AND ODOUR-FREE. PERFECT FOR THE KITCHEN AND MOST HARD SURFACES.

- Keeps areas clean and odour-free
- Keeps on working after application
- Less work required
- Harnessing the power of Nature
- Naturally biodegradable

Directions:

Wet Floor Mopping: Dilute to 2.5% solution (1:40, 25ml or 5tsp per litre) with cold or warm fresh tap water and mop floors. Do not rinse, allow diluted product to sit for extended periods. Heavily soiled areas will require agitation to help break down the soiling.

Hard Surface Spray & Wipe Cleaning: Dilute to a 5% solution (1:20, 50ml or 1 5 cup per litre) with warm or cold fresh tap water and use a spray cleaner (with foaming spray head) for cleaning surfaces in bathrooms, kitchens and any other area where organic soiling accumulates. Spray and leave on stained grout. Thoroughly rinse all food contact areas before use.

Odour Neutralising: Dilute to a 10% solution (1:9, 100ml or 2 5 cup to 1 litre) and use a foaming spray head to apply to waste bins to reduce odours and to breakdown soiling before deep cleaning. Once rinsed the bins can be foam-sprayed again and put back into service. This will help reduce odours during future use.

Toilet Maintenance: Dose 50ml (undiluted) directly to toilet bowl and flush daily to also assist maintain healthy septic systems. A 500ml shock dose (1 2 litre, 2 cups) may be required for odorous or blocked septic systems. Repeat for 4 days and then apply 50ml (1 5 cup) daily maintenance dose.

20 Litres	FK-BIOMULT20
5 Litres	FK-BIOMULT05
750mls	FK-BIOMULT750
1 Litre (Chamber)	FK-BIOMULT01

FLOOR Cleaner
Use product at 1:40 (125 mls per 5L water)

TOILET CLEANER
Use product UNDILUTED

TOILET CLEANER
Use product UNDILUTED

ODOUR NEUTRALISER
Use product at 1:10 (100 mls per 1L water)

Food Plants: Bio-Fresh products are designed to rid areas of typical plate count problems; floor and other wider environmental areas are not likely to have swabs / plate count results compromised. All MPI facility-based operators should rinse prior to swabbing.

How it Works

Bio-Fresh cleaners contain naturally occurring non-pathogenic microbes.
