BIO-ENZYMATIC GREEN CLEANING SOLUTION FOR CARPETS, FLOORING, WOOD, TILES, GROUT LINES, SYNTHETIC TURF AND FABRIC, SUITABLE FOR PET AREAS, URINALS AND AGED CARE.

- Removes urine stains & odours
- Naturally biodegradable
- De-stains surfaces
- Less work required
- Harnessing the power of Nature
- Scented

Directions:

Bio-Urine Go is ready-to-use. DO NOT DILUTE.

First, determine the cause of the stain - ensure it is from a natural organic source such as body-soiling, or food, fruit juice, vegetable oils, starches. Spray the stain directly with a foam-spray head (undiluted) and allow 10-15 minutes to work, gently working into the area to ensure the formulation gets to as much soiling as possible and works its way into all stained areas. Pat out with a damp clean sponge after 10-15 mins. Check results when dry, repeat if required or finish using an extraction carpet machine.

5 Litres FK-BIOFU05
750mls FK-BIOFU750
Applicator BK-BIOFU01

STAIN & ODOUR REMOVER
Use product UNDILUTED

Food Plants: Bio-Fresh products are designed to rid areas of typical plate count problems; floor and other wider environmental areas are not likely to have swabs / plate count results compromised. All MPI facility-based operators should rinse prior to swabbing.

How it Works

Bio-Fresh cleaners contain naturally occurring non-pathogenic microbes.
