co-botic 1700

Commercial robotic vacuum cleaner

The co-botic 1700 is a smart, programmable vacuum robot that allows you to simply sit back and watch the cleaning magic happen before your eyes.

Optional Docking station

The co-botic 1700 automatically finds the route to the docking station, empties itself and recharges while docked.

Using the App

Create cleaning plans, exclusion zones and assign it to a schedule for automatic cleaning - all from the i-team professional App.
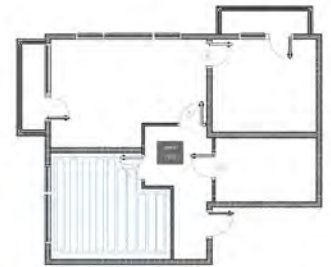

Sophisticated live mapping

Fitted with 25 advanced sensors to ensure an optimal and efficient cleaning outcome.

Remote controlled

Use the remote to directly start autonomously cleaning a room, instead of using the app.

Dustbin inside

The removable dust collector is fitted with a HEPA filter to ensure clean exhaust air.

Technical Specifications

Power rate	**50 W**
Voltage	**14.4 V**
Runtime	**270 minutes**
Charge time	**240 minutes**
Sound level	**65-73 dB**
Speed	**0.3 m/s**
Dust bin volume	**400 ml**
Dimensions (l x w x h)	**350x350x98 mm**
Docking station capacity	**4.2 L**

Codes

co-botic 1700
COB17N.FCT.0220A

Docking station
COB17.FCT.0220B

Why co-botic 1700?

> Unleash the efficiency of automated vacuuming

> Free up staff to focus on other tasks

> Automatic emptying into docking station

> Eliminate the strain on operators from Manual vacuuming

> Program the co-botic 1700 with the app - or allow it to program itself
